

ENVIRONMENTALIST IV Position #12055

The New Hampshire Department of Environmental Services (DES), Water Division, Wastewater Engineering Bureau has an immediate opening for a full-time Environmentalist IV. The ideal candidate should have experience with the operation and maintenance of wastewater collection systems and treatment facilities. Experience in troubleshooting operational issues and knowledge of nutrient removal processes is very desirable. On-site field work at treatment facilities to perform hands-on testing and microscopic work at plants is also required.

Minimum qualifications for this position are bachelor's degree with a major in environmental engineering, biology, chemistry, physics, environmental law, environmental conservation, or other related environmental science and six years' experience as an Environmental Engineer or Environmentalist in wastewater treatment, or closely-related field, two years of which shall have involved supervisory duties as well as the preparation of various environmental documents, legal briefs or related research. Each additional year of approved formal education may be substituted for one year of required work experience.

N.H. Grade IV wastewater treatment plant operator certification or ability to obtain same within the 6-month probationary period.

The salary range for this position \$52,825.50 - \$62,731.50. Three additional steps may be awarded based on successful performance evaluations. The selected candidate must satisfactorily pass criminal background and motor vehicle checks and will have to pay a union/agency fee at a future date. For further information on the responsibilities for this position, contact Kenneth Kessler, Sanitary Engineer III, (603) 271-3549 or e-mail at: Kenneth.Kessler@des.nh.gov
